

OVERVIEW

The Cooper Software Clocking solution works with your IFS system to provide managers with a way of monitoring and approving time and attendance of employees using on-premise clocking devices and terminals.

COOPER SOFTWARE | CLOCKING APP

KEY FEATURES:

- ✓ Integrates with any in-house or 3rd party clocking device or terminal
- ✓ Facilitates different shift patterns and work schedules
- ✓ Links directly with payroll and HR systems
- ✓ Work across multiple sites and locations
- ✓ Integrates with other T&A Solutions
- ✓ Handles planned and unplanned absences, lateness and overtime

BENEFITS:

- ✓ Improves accuracy of recorded data
- ✓ Delivers business efficiencies
- ✓ Reduces operational tasks for HR and payroll
- ✓ Speeds up payroll processing
- ✓ Only requires user moderation instead of manual user input
- ✓ Processes automated based on schedules and rules
